Mr. Rosenberg:

Kudos again for your creative and successful approach to our recent mediation. This was a case involving deep emotions and a grievously divided family and you seem to have brought them together after years of bickering, violence, tears and bitterness.

This was a case that I absolutely did not want to mediate. I feared being in the same room with all of the warring factions. You were able to bridge the gaps from the beginning and achieved exactly the resolution that was desired.

It was the first time I had worked with you on a case of this nature, my prior work with you having involved real estate litigation where you also, despite my doubts, achieved resolution.

I have great confidence in your skills and will continue to use your services and recommend you to colleagues.

Thank you again for your success in our recent matter.

Very truly yours,

ORME AND GRABSTEIN
